MASTER OF SCIENCE

A french business
school with
3 international
accreditations

Since 2022, TBS Education became a Business for good with the purpose:

“Thanks to research with a societal impact, TBS Education trains diverse, open and enlightened learners, who will contribute to the development of a responsible and sustainable economy within their organizations.”

We aim for our students to become responsible decision-makers, with high ethical and human standards, a keen situational intelligence and a strong ability for action and innovation.

To achieve this goal, TBS Education applies student centered teaching methods, individual coaching and project-based learning throughout the programs in order to reveal and nurture the unique features of every single student.

TBS Education offers Master of Science programs on 3 campuses located in vibrant European International cities to make sure students excel in international collaboration and are able to adapt to all professional contexts.

Strongly committed to academic excellence, TBS Education has also developed its unique Master of Science programs with partner companies to anticipate the economic evolution and new professions as best as possible. Our strategy of pedagogical innovation, based on research and experimentation, has won several international awards.

Professional experience and academic expertise are key to our all of our Master of Sciences. Bolstered by the renowned expertise of our professors, guest teachers and our wide alumni network, TBS Education provides students with crucial skills to master the job that inspires them so that they are quickly identified as high-potential managers. We are confident that they will become responsible actors, contributing to a positive transformation of their organization towards a more sustainable and viable economic model.

Taiwan • MSc Digital Marketing & Analytics

With this program, we have the advantage of mixing two areas together which raises our employability within many companies. I was looking for a program which could provide courses linking engineering and business. Big Data was my first and only choice when I decided to come to France to study. With multiple projects, group discussions, coaching from professors and professionals, and teamwork with classmates, students learn at an extraordinary speed. Big Data is the future, everyone knows that. If you want to step out from pure traditional business, if you are looking for something different, cross-subject and interesting, then this MSc is for you.

Chloé

Canada • MSc Communication & Brand Content

I found my MSc at TBS Education and immediately knew this would be the right fit. It is an interdisciplinary program, which focuses on three fundamental aspects of the business world. Additionally, holding a triple international accreditation, TBS Education has a worldwide reputation and is recognized by employers across the globe. I thrive in this cultural environment, while having the opportunity to work in a diverse team, which is a key asset in the professional world.

Lebanon - **Msc Data Science & Artificial Intelligence**

The MSc Big Data, Marketing & Management is a great crossroad between technical and business, it provides you with the necessary tools to be able to extract, transform, visualize and understand data and at the same time understand the business value of it. In addition, the guest lecturers always were very interesting, and it provided us with a sneak peak of what can we expect in the data related careers. I can recommend TBS Education mainly because of the students and professors coming from diverse backgrounds, it exposes us to different ways of thinking and opens our eyes to ideas we haven't thought about before whether on a professional or personal side.
