Sally Lundqvist - Sweden
Bachelor In Management

TBS Education has a great reputation and allows you to study in three different countries during your Bachelor. The staff is friendly and welcoming and classes are very practical. The fact that the classes are reduced in size makes it easy to interact with your teachers and classmates and create relationships.

Li Yezi (Julie) - China
MSc Big Data, Marketing & Management

This program can really help me to build my future career. We have the opportunity to work and communicate with professionals, and they brought us the knowledge but also the passion. It is also a great experience to work with different students from different nationalities. Toulouse is an amazing city and has a really innovative environment with Airbus headquarters and so on. So, if you have the opportunity to study at TBS Education, just grab your chance and buy your tickets to flight to France; and explore the culture, the food and the french living style. It is really an amazing experience.
